1. We will, of course, take steps to include J-2 of CINCPAC on the automatic distribution list for all areally pertinent Geographic Intelligence Memoranda (as well as other forms of geographic intelligence publications). Information regarding the number of copies of such issuances required by CINCPAC would be appreciated.

2. In addition, we will be responsive, within our capability, to specific requests or suggestions from CINCPAC as to critical areas or problems for treatment by Geographic Intelligence Memorandum or other form of [ ] issuance.

3. We feel that Admiral Layton's attention should also be invited to the fact that periodic issuances of the Geographic Intelligence Review often contain concise presentations of basic geographic facts for areas that are, or may become, critical, and that these presentations frequently include medium- to small-size maps.
